## STYLE/EXTERIOR DATA

Architectural Style(s)

Exterior & Architectural Notes:

**June 2009:** Constructed in 1896, this one-story, two-bay building shares a façade with 648 H Street, NE and has a rectangular form. The building is constructed of brick and is set on a solid concrete foundation. The façade (south elevation) has been faced with stretcher-bond brick, while the rear elevation is constructed of American-bond brick. A sloping roof caps the building, though the roofing material was not visible from the public right-of-way. A molded cornice with modillions and end brackets stretches across the full façade and also features a paneled wood frieze. A soldier brick string course runs across the façade above the cornice. A parapet, faced with stretcher-bond bricks and topped with concrete finishes the roof. A diamond-shaped panel is centrally located within the parapet and recessed brick panels with rowlock brick surrounds are sited on opposing sides of the façade. An exterior-rear brick chimney rises from the north elevation and has a parged cap. The easternmost bay contains a single-leaf metal-frame glass door with a one-light metal transom. A one-story bay projects from the westernmost bay of the façade and is set on solid foundation faced with brick. The first story of the façade is sheltered by a one-story, one-bay awning, with a molded cornice.

A one-story addition is located on the rear elevation of the building and was constructed ca. 1955. The addition is constructed of concrete blocks and is set on a solid concrete block foundation. A shed roof caps the addition and is covered with pebbles. The western bay of the addition is clad with vinyl siding. A single-leaf metal door pierces the rear elevation of the addition.

Site Notes:

**June 2009:** This store is located on the north side of H Street, NE and directly fronts the concrete sidewalk. The store shares a façade with 648 H Street, NE and is adjacent to 644 H Street, NE. A paved public alley is located north of the building and provides access to the rear of the building.

Architectural Style(s)

**Commercial (Modern)**

Exterior & Architectural Notes:

**June 2009:** Constructed in 1951, this five-story commercial storage warehouse replaced the Apollo Theatre, which had been constructed in 1913. The building is constructed of concrete blocks and is set on a solid concrete block foundation. The façade (south elevation) is faced with large, concrete panels. A flat roof caps the building. A metal balustrade encircles the roof of the building. An interior brick chimney rises from the southwest corner and has a plain cap. The central bay of the ground floor consists of paired triple one-light metal fixed windows with one-light metal sidelights. The bay is flanked by a single roll-up metal door to the east and paired roll-up metal doors to the west. The westernmost bay projects from the façade and is constructed of concrete blocks. The bay is fenestrated with triple one-light metal fixed windows. The easternmost bay of the façade also projects and is constructed of concrete blocks. A band of fixed one-light metal windows spans the façade of the bay. The bands of original fenestration of the upper stories of the façade have been covered with metal sheeting, though the concrete sills remain. The fenestration of the east (side) elevation consists of single and paired 6/3, double-hung, metal-sash windows with concrete sills. Additionally, the northernmost bays contain paired 6/3, double-hung, metal-sash windows flanked by 4/2, double-hung, metal-sash windows. The original fenestration of the west (side) and rear (north) elevations have been covered with metal sheeting or infilled with concrete blocks.

A two-story wing is located on the rear elevation of the building and is original to and shares the same material treatment as the main block. A flat roof caps the wing and is encircled by a balustrade of metal poles. Most fenestration has been covered with metal sheeting. An elevator shaft, constructed of concrete blocks, rises from the northwest corner of the wing and rear elevation of the building and is original to and shares the same material treatment as the main block.

Site Notes:

**June 2009:** This storage warehouse is located on the north side of H Street, NE and directly fronts the concrete sidewalk. The building is adjacent to 620 and 644 H Street, NE. A public paved alley is sited north of the building and provides access to the rear of the building.

Exterior & Architectural Notes:

**June 2009: Constructed between 1869 and 1871, this two-story, two-bay building was originally constructed as a single dwelling. The building is constructed of brick and is set on a solid brick foundation; the façade (south elevation) is faced with stretcher-bond brick. A sloping roof caps the dwelling, however, the roofing material was not visible from the public right-of-way. An ogee-molded cornice spans the façade and is sited beneath the brick parapet. The easternmost bay of the façade contains a single-leaf metal-frame glass door with a one-light metal transom and concrete lintel. The westernmost bay contains triple one-light fixed metal windows with one-light metal transoms. A concrete lintel stretches across the top of the door and window bays. The two second story window openings contain twelve-light metal casement windows with rowlock brick sills and concrete lintels. The original window openings of the rear (north) elevation have been infilled with brick, however, the two-course, rowlock brick segmental arches are still visible.**

**A one-story, full-width addition is located on the rear elevation of the building and was constructed ca. 1940. The addition is constructed of American-bond brick and has a flat roof. An interior brick chimney rises from the northwest corner of the addition and has a rowlock brick cap. The easternmost bay of the rear elevation contains a single-leaf paneled wood door. A second single-leaf door pierces the west bay.**

Site Notes:

**June 2009: This building is located on the north side of H Street, NE and directly fronts the concrete sidewalk. The building is adjacent to 650 and 654 H Street, NE. A public alley is located north of the building and provides access to the rear of the building.**

## MISCELLANEOUS NOTES DATA

---

Notes:

The 1864 General Assessment book indicates that 652 H Street (known as Lot 2) had an assessed value of \$70 and the 1869 book notes a value of \$112. By the 1869-1871 General Assessment, the lot had jumped in value and was now worth \$300.00 at a rate of .8 per square foot. James Corbett owned the property. The 1872-1873 General Assessment book notes that Ephraim MacKenna was assessed \$209.00 or 1,394 square feet at a rate of .15.

General Assessment, 1864. (Vol. 10 of 18) Corporation of Washington. Records of Government of the District of Columbia, Record Group 351 (Entry 46), National Archives Building, Washington, D.C.

General Assessment, 1869. Corporation of Washington. (Vol. 12. of 18) Records of Government of the District of Columbia, Record Group 351 (Entry 46), National Archives Building, Washington, D.C., p. 349.

General Assessment, 1869-1871. Corporation of Washington. (Vol. 13 of 18) Records of Government of the District of Columbia, Record Group 351 (Entry 46), National Archives Building, Washington, D.C., p. 740.

General Assessment, 1872-1873. Corporation of Washington. (Vol. 14 of 18) Records of Government of the District of Columbia, Record Group 351 (Entry 46), National Archives Building, Washington, D.C., p. 682.

Exterior & Architectural Notes:

**May 2009:** This two-story, three-bay building was constructed in 1888 and has a rectangular form. Set on a solid foundation, this brick building has seven-course, American-bond brick coursing. The Italianate-style building has a brick parapet with a prominent brick corbels with rosettes, indented brick molding, and a denticulated cornice. Two interior-side brick chimneys with corbeled caps extend from the east (side) elevation. The façade (south elevation) and part of the east elevation feature a projecting storefront bay. The bay is fenestrated with single-light display windows and a double-leaf, metal-frame glass door. A wrap-around roof caps the projecting bay and features a molded cornice and metal signs on the roof. The roof is partially supported by metal chains anchored to the façade wall with rosettes. The second story of the façade is pierced by three, single-light, vinyl-sash casements with twelve-light false muntins. The openings have concrete sills joined by a fluted band. Additional window opening details include a segmental soldier brick arch with pearls and a fluted string bisecting the openings. A third fluted string extends above the façade second-story openings. The east (side) elevation is pierced by single-light, vinyl-sash casements with twelve-light false muntins. These openings have concrete sills and two-course, rowlock brick segmental arches. The first story window openings have been bricked. A single-leaf metal door with light is located south of the projecting bay, which is two-stories in height and two-bays wide. The bay has fenestration consistent with the east elevation and features recessed corners. The north (rear) elevation has two first-story window openings that have been enclosed with brick. The second story has two, single-light, vinyl-sash casements with nine-light false muntins and no surrounds.

Site Notes:

**May 2009:** This building, which fronts the concrete sidewalk, is located at the northwest corner of H Street, NE and 7th Street, NE. The building is attached to 652 H Street, NE to the west. The rear of the property is enclosed by a plywood fence. An alley extends behind the building.

## STYLE/EXTERIOR DATA

Architectural Style(s)

Exterior & Architectural Notes:

**May 2009:** This one-story commercial building was constructed in 1963. Set on a solid foundation, this masonry building is constructed of concrete block with various veneers. A flat roof caps the building, though the roofing material was not visible from the public right-of-way. The building supports four businesses, with the dominant business being Murry's. Murry's is located in the southwest corner of the building and enjoys storefront along H Street, NE as well as along the west elevation. Good Danny's Carryout occupies the middle storefront along H Street, NE. This establishment also has a 610 H Street, NE address. The eastern storefront along H Street, NE belongs to King's Discount Store. King's has a 620 H Street, NE address. The fourth business associated with this building is located in the northwest corner. Love & Care Child Development Center has a 616 H Street, NE address and fronts the parking lot west of the building and the alley to the north.

Murry's has a rough-faced concrete block finish surmounted by a smooth concrete-block veneer. The southwest corner is sheltered by an integrated porch with deep overhanging eaves and a large sign board. The cantilevered porch shelters multiple metal-sash storefront windows and the entry openings to Murry's. The door openings contain single-leaf, metal-frame glass doors.

The middle and eastern storefronts of the H Street, NE elevation have a stretcher-bond brick veneer with concrete pilasters. Good Danny's Carry Out is located in the middle section and features a hipped-roof hood. The hood is covered with standing-seam metal and supports a large neon sign. This storefront has a recessed square store arrangement with large display windows and two, single-leaf, metal-frame glass doors.

King's Discount Store is located at 620 H Street, NE and occupies the easternmost storefront along H Street, NE. The store has a large metal awning with a metal sign affixed above. The awning shelters a single-leaf metal door with light, a single-leaf, metal-frame glass door, and two display windows.

A single-leaf metal door is located in the easternmost bay of the H Street, NE elevation.

The northwest corner of the building is occupied by Love & Child Development Center. The north (rear) elevation of the building has a five-course, American-bond brick veneer. The entry opening is set beneath an integrated porch which dominates the northwest corner of the building. The porch is supported by a concrete pillar and has overhanging eaves and a boxed cornice. The primary entry to the child-care facility holds a double-leaf, metal-frame glass door. Access to the porch is regulated by a metal security gate. The west elevation of the Love & Child Development Center features large plain fields interrupted by engaged pilasters with tiled panels below.

The north (rear) elevation of the building has a loading dock located in the northeast corner. The dock is sheltered by a flat metal roof and contains a large opening. The dock is protected by a metal fence.

Site Notes:

**May 2009:** This building is located northeast of the intersection of H Street, NE and 6th Street, NE. The building directly fronts the concrete sidewalk along H Street, NE. A large parking lot is located west of the building, adjacent to the intersection. An alley extends north of the building, providing access from 6th Street, NE and 7th Street, NE. The building is attached to the east. There is no landscaping.

**MISCELLANEOUS NOTES DATA**

Notes:

This building now serves four businesses. The building permit documents the entire building having a 616 H Street, NE address. However, the individual businesses have been assigned different addresses. Murry's, a grocery store, has a 610 H Street, NE address. This address is shared by Good Danny's Carryout. With an address of 620 H Street, NE, King's Discount Store occupies the southeast corner of the building. The northwest corner of the building is home to Love & Care Child Development Center. The child care facility has a 616 H Street, NE address.

### STYLE/EXTERIOR DATA

Architectural Style(s)

---

Exterior & Architectural Notes:

**May 2009:** H.R. Howenstein constructed this two-story, three-bay single dwelling in 1911. It currently has residential space on the second story and a commercial unit on the first story. The brick building is set on a solid brick foundation; both are faced with stretcher-bond brick. A brick parapet wall flanked by firewalls partially obscures the sloping roof. Below the parapet wall is a metal cornice with a wide frieze featuring garland detailing. A clear view of the solid foundation was obscured by a one-story projecting bay addition that spans the western two-thirds of the façade (south elevation). The projection is fenestrated by two 1/1, double-hung, vinyl-sash windows. It is clad in vinyl siding and is capped by a flat roof that extends to the east, protecting the easternmost bay that holds a single-leaf paneled wood door. Above the door is a one-light transom. The second story is fenestrated by 1/1, double-hung, vinyl-sash windows with concrete sills and concrete lug lintels. The east and west (side) elevations are obscured by adjoining buildings.

Site Notes:

**May 2009:** This building is located on the north side of H Street, NE and directly fronts the concrete sidewalk. It is adjacent 646 H Street, which is located to the east and 624 H Street, which is located to the west. A public alley is located to the north and provides access to the rear of the property. A concrete wall spans the northern boundary line.

**MISCELLANEOUS NOTES DATA**

Notes:

The 1864 General Assessment book indicates that 650 H Street (originally known as Lot 3) had an assessed

value of \$70 and the 1869 book notes a value of \$112. By the 1869-1871 General Assessment, the lot had jumped in value and was now worth \$400.00 at a rate of .8 per square foot. James Corbett owned the property. The 1872-1873 General Assessment book notes that John Walker was assessed \$209.00 or 1,394 square feet at a rate of .15.

General Assessment, 1864. (Vol. 10 of 18) Corporation of Washington. Records of Government of the District of Columbia, Record Group 351 (Entry 46), National Archives Building, Washington, D.C.

General Assessment, 1869. Corporation of Washington. (Vol. 12. of 18) Records of Government of the District of Columbia, Record Group 351 (Entry 46), National Archives Building, Washington, D.C., p. 349.

General Assessment, 1869-1871. Corporation of Washington. (Vol. 13 of 18) Records of Government of the District of Columbia, Record Group 351 (Entry 46), National Archives Building, Washington, D.C., p. 740.

General Assessment, 1872-1873. Corporation of Washington. (Vol. 14 of 18) Records of Government of the District of Columbia, Record Group 351 (Entry 46), National Archives Building, Washington, D.C., p. 682.
