## STYLE/EXTERIOR DATA

Architectural Style(s)

**Queen Anne**

Exterior & Architectural Notes:

October 2010: This one-story, two-bay building was constructed in 1893 by owner/builder P.C. Palmer as a commercial building (permit #0643). Sanborn Insurance maps indicate the building has had a number of uses. In 1960, the building is noted as a dwelling and the building is currently used for storage. The building reflects the Queen Anne and Italianate styles and is composed of a rectangular block with a one-story, rectangular projecting bay on the façade (north elevation). Set on a solid brick foundation, the brick building is faced with stretcher-bond brick on the façade and is parged on the secondary elevations. Dogleg brick lines the corners of the façade. The flat roof of the building is edged with metal coping and has a corbeled brick cornice. The building is fenestrated with a single-leaf entry, 1/1, double-hung, vinyl-sash windows, and a one-light vinyl casement window. Window openings have brick rowlock sills and all openings except the window on the east side of the bay have segmental brick arches with drip molding. The basement level is fenestrated with 1/1, double-hung, vinyl-sash windows. A six-sided parged structure was added to the roof of the dwelling. It has a flat roof and is fenestrated with a single-leaf door. This addition presumably holds a stair that provides roof-top access.

Site Notes:

October 2010: This building is located on the south side of the street on a sloping lot. The building is set back approximately five feet from the public brick sidewalk.
