## STYLE/EXTERIOR DATA

Architectural Style(s)

Colonial Revival

Craftsman

Exterior & Architectural Notes:

**November 2009:** Constructed in 1923 by H.R. Howenstein, this two-story, two-bay Colonial Revival-style multi-family rowhouse was influenced by the Craftsman style and is one of four similar dwellings constructed from the same permit (#10455). Set on a solid concrete foundation, this brick dwelling is faced with five-course, American-bond brick. Soldier brick stringcourses span the façade above the first and second stories of the façade (south elevation). A sloping roof caps the building and is fronted along the façade by a false mansard roof of asphalt shingles. A prominent overhanging eave extends from the false mansard roof and features exposed rafter ends. A shed dormer, capped by a roof of asphalt shingles with exposed rafter ends, marks the false dormer and is fenestrated by a single-light window. An interior-side brick chimney rises from the west (side) elevation and has a plain cap. The façade (south elevation) is pierced by a single-leaf, paneled wood door with lights (surmounted by a single-light transom) and single and paired 1/1, double-hung, vinyl-sash windows. A one-story, full-width porch spans the façade and is set on a brick pier foundation with brick infill. A single-light window pierces the foundation. A flat roof, featuring overhanging eaves, caps the porch and is supported by brick posts set upon brick pedestals. Metal balusters finish the porch. The west elevation features fenestration that is consistent with the façade.

A two-story enclosed porch, set on a foundation-level garage, extends from the rear (north) elevation of the dwelling. The wood-frame enclosed porch is clad with vinyl siding and is capped by a sloping roof. Visible fenestration consists of paired 1/1, double-hung, vinyl-sash windows. The solid foundation, faced with brick, is pierced by a roll-up, paneled metal door on the west elevation.

Site Notes:

**November 2009:** This two-story rowhouse is located on the northeast corner of A Street, N.E. and 16th Street, N.E. and is set back approximately fifteen feet from the sidewalk. The raised, grassy front yard is marked by mature shrubs and foundation plantings and is bounded by a stone retaining wall. Concrete steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

November 2009: Constructed in 1923 by H.R. Howenstein, this two-story, two-bay Colonial Revival-style multi-family rowhouse was influenced by the Craftsman style and is one of four similar dwellings constructed from the same permit (#10455). Set on a solid concrete foundation, this brick dwelling is faced with five-course, American-bond brick. Soldier brick stringcourses span the façade above the first and second stories of the façade (south elevation). A sloping roof caps the building and is fronted along the façade by a false mansard roof of asphalt shingles. A prominent overhanging eave extends from the false mansard roof and features exposed rafter ends. A shed dormer, capped by a roof of asphalt shingles with exposed rafter ends, marks the false dormer and is fenestrated by a six-light wood window. The façade (south elevation) is pierced by a single-leaf, flush wood door with a diamond light (surmounted by a single-light transom) and single and paired 1/1, double-hung, vinyl-sash windows. A one-story, full-width porch spans the façade and is set on a brick pier foundation with wood lattice infill. A flat roof, featuring overhanging eaves, caps the porch and is supported by brick posts set upon brick pedestals. Square wood balusters finish the porch. Sanborn maps indicate that a two-story ell extends from the rear elevation of the dwelling. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

November 2009: This two-story rowhouse is located on the north side of A Street, N.E. and is set back approximately fifteen feet from the concrete sidewalk. The raised, grassy front yard is marked by mature shrubs and foundation plantings and is bounded by a stone retaining wall that is topped by a metal chain-link fence. Concrete steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

Architectural Style(s)

### Classical Revival

Exterior & Architectural Notes:

November 2009: Constructed in 1909 by W.J. Simmons, this two-story, two-bay Classical Revival-style single-family rowhouse is one of four similar dwellings constructed from the same permit (#3770). Set on a solid concrete foundation, this brick & frame dwelling is faced with Flemish-bond brick. Multiple projecting brick stringcourses span the façade and a concrete stringcourse is located above the first story openings. A sloping roof caps the building and is accented by a molded metal cornice. The façade (south elevation) is pierced by a single-leaf, paneled metal door with lights (surmounted by glass blocks and a concrete lintel) and single and paired 1/1, double-hung, vinyl-sash windows. Each window opening is finished with a concrete sill and the second story openings are each topped by a three-course, rowlock brick segmental arch. Sanborn maps indicate that a two-story ell extends from the rear elevation. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

November 2009: This two-story rowhouse is located on the north side of A Street, N.E. and is set back approximately fifteen feet from the concrete sidewalk. The raised, grassy front yard is bounded by a concrete block retaining wall. Concrete steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor

Exterior & Architectural Notes:

November 2009: Constructed in 1909 by W.J. Simmons, this two-story, two-bay Classical Revival-style single-family rowhouse is one of four similar dwellings constructed from the same permit (#3770). Set on a solid concrete foundation, this brick & frame dwelling is faced with Flemish-bond brick. Multiple projecting brick stringcourses span the façade and a concrete stringcourse is located above the first story openings. A sloping roof caps the building and is accented by a molded metal cornice. The façade (south elevation) is pierced by a single-leaf, paneled door (surmounted by a two-light transom and a concrete lintel) and single and paired 1/1, double-hung, vinyl-sash windows. Each window opening is finished with a concrete sill and the second story openings are each topped by a three-course, rowlock brick segmental arch. Sanborn maps indicate that a two-story ell extends from the rear elevation. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

November 2009: This two-story rowhouse is located on the north side of A Street, N.E. and is set back approximately fifteen feet from the concrete sidewalk. The raised front yard is bounded by a concrete block retaining wall. Concrete steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

Architectural Style(s)

**Colonial Revival  
Craftsman**

Exterior & Architectural Notes:

November 2009: Constructed in 1923 by H.R. Howenstein, this two-story, two-bay Colonial Revival-style single-family rowhouse was influenced by the Craftsman style and is one of eleven similar dwellings constructed from the same permit (#8795) and one of three constructed along A Street, N.E. Set on a solid concrete foundation, this brick dwelling is faced with five-course, American-bond brick. A soldier brick stringcourse spans the façade above the first and second story window openings. A sloping roof caps the building and is fronted along the façade by a false mansard roof of asphalt shingles. A prominent overhanging eave extends from the false mansard and features exposed rafter ends. The façade (south elevation) is pierced by a single-leaf, paneled wood door with an oval light (surmounted by a single-light transom), a single-light fixed window, a 1/1, double-hung, vinyl-sash window, and a tripartite window. The tripartite window is composed of a central fixed single-light window and flanking single-light sliding windows. Each window opening has a concrete sill. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

November 2009: This two-story rowhouse is located on the north side of A Street, N.E. and is set back approximately fifteen feet from the concrete sidewalk. The raised, grassy front yard is tiered with wood railroad ties and is marked by shrubs. Concrete steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

Architectural Style(s)

**Classical Revival**

Exterior & Architectural Notes:

**November 2009:** Constructed in 1911 by George A. Forbes from the design by Hunter & Bell, this two-story, three-bay Classical Revival-style single-family rowhouse is one of eight similar dwellings constructed from the same permit (#2521). Set on a solid concrete foundation, this brick dwelling is faced with five-course, American-bond brick. A sloping roof caps the building and is accented by a molded metal cornice. The façade (south elevation) is pierced by a replacement, single-leaf, paneled metal door with lights (surmounted by a three-course, rowlock brick segmental arch) and 1/1, double-hung, vinyl-sash windows. Each window opening is finished with a two-course, rowlock brick segmental arch. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

**November 2009:** This two-story rowhouse is located on the north side of A Street, N.E. and is set back approximately fifteen feet from the concrete sidewalk. The raised front yard is tiered with railroad ties and is marked by shrubs. Concrete steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

Architectural Style(s)

**Classical Revival**

Exterior & Architectural Notes:

November 2009: Constructed in 1911 by George A. Forbes from the design by Hunter & Bell, this two-story, three-bay Classical Revival-style single-family rowhouse is one of eight similar dwellings constructed from the same permit (#2521). Set on a solid concrete foundation, this brick dwelling is faced with five-course, American-bond brick. A sloping roof caps the building and is accented by a molded metal cornice. The façade (south elevation) is pierced by a single-leaf, paneled wood door (surmounted by a three-course, rowlock brick segmental arch) and 1/1, double-hung, vinyl-sash windows. Each window opening is finished with a two-course, rowlock brick segmental arch. A one-story, one-bay porch extends from the façade and is set on a solid concrete foundation. A flat roof, featuring overhanging eaves, caps the porch and is supported by square wood posts set upon brick pedestals. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

November 2009: This two-story rowhouse is located on the north side of A Street, N.E. and is set back approximately fifteen feet from the concrete sidewalk. The raised, grassy front yard is tiered with railroad ties and is bounded by a stone retaining wall along its southern edge. Concrete steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

**Classical Revival**

Exterior & Architectural Notes:

November 2009: Constructed in 1911 by George A. Forbes from the design by Hunter & Bell, this two-story, three-bay Classical Revival-style single-family rowhouse is one of eight similar dwellings constructed from the same permit (#2521). Set on a solid concrete foundation, this brick dwelling is faced with five-course, American-bond brick. A sloping roof caps the building and is accented by a molded metal cornice. The façade (south elevation) is pierced by a single-leaf, paneled door with lights (surmounted by a three-course, rowlock brick segmental arch), 1/1, double-hung, wood-sash windows, a fixed single-light octagonal window, and a tripartite window. The tripartite window is composed of a central eight-light window and flanking four-light wood casement windows. An elliptical fanlight, featuring a sunburst motif, tops the tripartite window. Each second story window opening is finished with a two-course, rowlock brick segmental arch. The east (side) elevation is fenestrated with 1/1, double-hung, wood-sash windows. Each window opening is topped by a two-course, rowlock brick segmental arch.

A two-story brick ell extends from the rear (north) elevation of the dwelling and is original. The brick ell is set on a solid foundation and is capped by a sloping roof. Visible fenestration consists of 1/1, double-hung, wood-sash windows. Each opening is surmounted by a two-course, rowlock brick segmental arch.

The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

November 2009: This two-story rowhouse is located on the northwest corner of A Street, N.E. and 17th Street, N.E. and is set back approximately fifteen feet from the concrete sidewalk. The raised, grassy front yard slopes to the south and is bounded by a stone retaining wall. Concrete steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

Architectural Style(s)

**Modern**

Exterior & Architectural Notes:

**November 2009: Constructed ca. 1968, this two-story, two-bay single-family dwelling was influenced by the Modern Movement. Set on a solid, raised concrete block foundation, this concrete block building is faced with stretcher-bond brick and stack-bond brick. A sloping roof caps the building. The façade (east elevation) is pierced by two single-leaf doors, 1/1, double-hung windows and tripartite windows. A one-story, one-bay porch shelters the first story entrance. The metal awning is supported by thin metal posts. The rear (west) elevation was not surveyed or photographed by the volunteer surveyor.**

Site Notes:

**November 2009: This two-story dwelling is located on the west side of 17th Street, N.E. and is set back approximately thirty feet from the concrete sidewalk. The raised, grassy front yard, which is marked by mature shrubs and trees, slopes to the east and is bounded by a stone retaining wall. Concrete steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.**

## STYLE/EXTERIOR DATA

Architectural Style(s)

**Modern**

Exterior & Architectural Notes:

**November 2009: Constructed ca. 1968, this two-story, two-bay single-family dwelling was influenced by the Modern Movement. Set on a solid, raised concrete block foundation, this concrete block building is faced with stretcher-bond brick and stack-bond brick. A sloping roof caps the building. The façade (east elevation) is pierced by a single-leaf, paneled wood door with lights and tripartite windows. A metal awning shelters the primary entrance. Each window opening is finished by a rowlock brick sill. The rear (west) elevation was not surveyed or photographed by the volunteer surveyor.**

Site Notes:

**November 2009: This two-story dwelling is located on the west side of 17th Street, N.E. and is set back approximately thirty feet from the concrete sidewalk. The raised front yard, marked by mature shrubs, is tiered and slopes to the east and is bounded by a stone retaining wall and a metal chain-link fence. Steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.**

Architectural Style(s)

**Colonial Revival**

Exterior & Architectural Notes:

November 2009: Constructed in 1935 by R.L. Davis, this two-story, three-bay Colonial Revival-style single-family rowhouse is one of five similar dwellings constructed from the same permit (#180754). Set on a solid brick foundation, this brick & concrete block dwelling is faced with six-course, American-bond brick. A centered gable rises from the façade of the building and is accented by raking wood boards. A lunette window pierces the upper gable and features a rowlock brick surround. The façade (east elevation) is fenestrated with a single-leaf, paneled wood door with lights, a single-light window, and 6/6, double-hung, wood-sash windows. Each window opening is finished by a rowlock brick sill. A one-story, one-bay porch extends from the façade and is set on a brick pier foundation with wood lattice infill. Metal filigree posts support the roof of the porch. The rear (west) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

November 2009: This two-story dwelling is located on the west side of 17th Street, N.E. and is set back approximately thirty feet from the concrete sidewalk. The raised front yard slopes to the east and is bounded by a stone retaining wall. Steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

Each window opening is finished by a rowlock brick sill. A one-story, one-bay porch extends from the façade and is set on a brick pier foundation with decorative concrete block infill. Metal filigree posts support the sloping roof of the porch. The rear (west) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

November 2009: This two-story dwelling is located on the west side of 17th Street, N.E. and is set back approximately thirty feet from the concrete sidewalk. The raised, grassy front yard, which is marked by mature shrubs, slopes to the east and is bounded by a stone retaining wall. Concrete steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

**Colonial Revival**

Exterior & Architectural Notes:

November 2009: Constructed in 1935 by R.L. Davis, this two-story, three-bay Colonial Revival-style single-family rowhouse is one of five similar dwellings constructed from the same permit (#180754). Set on a solid brick foundation, this brick & concrete block dwelling is faced with six-course, American-bond brick. A sloping roof caps the building and is fronted along the façade by a false mansard roof of slate shingles. A centered gable rises from the façade of the building and is accented by raking wood boards. A lunette window pierces the upper gable and features a rowlock brick surround. The façade (east elevation) is fenestrated with a single-leaf, paneled wood door with lights and 1/1, double-hung, vinyl-sash windows. Each window opening is finished by a rowlock brick sill. A one-story, one-bay porch extends from the façade and is set on a brick pier foundation with solid brick infill. Brick posts support the sloping roof of the porch. The north (side) elevation is fenestrated with a single-leaf, flush door with a diamond light, paired one-light vinyl sliding windows, and 1/1, double-hung, vinyl-sash windows with false 6/6 vinyl muntins and false diamond-light vinyl muntins. The rear (west) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

November 2009: This two-story dwelling is located on southwest corner of 17th Street, N.E. and Constitution Avenue, N.E. and is set back approximately thirty feet from the concrete sidewalk. The raised, grassy front yard slopes to the east and is bounded by a stone retaining wall and a metal chain-link fence. Brick steps provide access to the primary entrance from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

**STYLE/EXTERIOR DATA**

Architectural Style(s)

**Modern**

Exterior & Architectural Notes:

**October 2009: Constructed in 1939 by E.M. Aiken Inc. from the design of George T. Santmyers, this two-story, five-bay apartment building was influenced by the Modern Movement and was constructed in two sections. The building known as 1625 Constitution Avenue, N.E. is three bays wide and holds four units and the building known as 1627 Constitution Avenue, N.E. is two bays wide and holds two units. Set on a solid concrete block foundation, this concrete block building is faced with six-course, American-bond brick. Stringcourses composed of soldier bricks span the façade. A sloping roof caps the building. The façade (north elevation) is pierced by two single-leaf, paneled metal doors, single and paired 1/1, double-hung, vinyl-sash windows, and a single-light wood window. Each window opening is finished with a rowlock brick sill and the door entries are accented by fluted stone pilasters. The rear (south) elevation was not surveyed or photographed by the volunteer surveyor.**

Site Notes:

**October 2009: This two-story apartment building is located on the south side of Constitution Avenue, N.E. and is set back approximately fifteen feet from the brick sidewalk. The raised, grassy front yard is bounded by a brick retaining wall which is topped by a wood fence. Concrete steps provide access to the primary entries. The backyard was not surveyed by the volunteer surveyor.**

Architectural Style(s)

**Classical Revival**

Exterior & Architectural Notes:

**October 2009:** Constructed in 1893 by J.W. Shane, this two-story, three-bay Classical Revival-style single-family rowhouse is one of three similar dwellings constructed from the same permit (#2754). Set on a solid parged foundation, this wood-frame dwelling is clad with vinyl siding. A sloping roof caps the building and is accented by a molded metal cornice. The façade (north elevation) is pierced by a single-leaf, paneled door with an oval light and 1/1, double-hung, vinyl-sash windows. Pilasters and a lintel with dentils finish the door opening. Sanborn maps indicate that a two-story ell extends from the rear (south) elevation of the dwelling. The rear elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

**October 2009:** This two-story, single-family rowhouse is located on the south side of Constitution Avenue, N.E. and is set back approximately ten feet from the brick sidewalk on a raised lot. The raised front yard is landscaped with mature shrubs and foundation plantings and is bounded by a wood retaining wall. Concrete steps provide access to the property from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

Architectural Style(s)

### Classical Revival

Exterior & Architectural Notes:

October 2009: Constructed in 1893 by J.W. Shane, this two-story, three-bay Classical Revival-style single-family rowhouse is one of three similar dwellings constructed from the same permit (#2754). Set on a solid brick foundation, this wood-frame dwelling is clad with Permastone. A sloping roof caps the building and is accented by a molded metal cornice. The façade (north elevation) is pierced by a single-leaf, paneled wood door (surmounted by a single-light transom) and 2/2, double-hung, wood-sash windows. A hood shelters the primary entrance and is supported by brackets. Sanborn maps indicate that a two-story ell extends from the rear (south) elevation of the dwelling. The rear elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

October 2009: This two-story, single-family rowhouse is located on the south side of Constitution Avenue, N.E. and is set back approximately ten feet from the brick sidewalk on a raised lot. The raised, grassy front yard is landscaped with mature shrubs and foundation plantings and is bounded by a stone retaining wall. Concrete steps provide access to the property from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

**STYLE/EXTERIOR DATA**

Architectural Style(s)

**Modern**

Exterior & Architectural Notes:

November 2009: Constructed ca. 1951, this two-story, two-bay apartment building was influenced by the Modern Movement. Set on a solid concrete block foundation, this concrete block building is faced with six-course, American-bond brick. A flat roof caps the building. Two exterior-side brick chimneys rise from the east (side) elevation and each has a plain cap. Visible fenestration consists of a single-leaf, paneled metal door with lights and single and paired 1/1, double-hung, vinyl-sash windows. Each window opening is finished by a rowlock brick sill. The rear (south) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

November 2009: This two-story apartment building is located on the south side of Constitution Avenue, N.E. and is set back approximately ten feet from the brick sidewalk on a raised lot. The raised, grassy front yard is landscaped with mature shrubs and foundation plantings and is bounded by a brick retaining wall that is topped by a metal milled point fence. Concrete steps provide access to the property from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

Architectural Style(s)

Colonial Revival  
Craftsman

Exterior & Architectural Notes:

October 2009: Constructed in 1923 by H.R. Howenstein, this two-story, two-bay Colonial Revival-style single-family rowhouse was influenced by the Craftsman style and is one of eleven similar dwellings constructed from the same permit (#8795) and one of eight constructed along 16th Street, N.E. Set on a solid concrete foundation, this brick dwelling is faced with Permastone. A sloping roof caps the building and is fronted along the façade by a false mansard roof of asphalt shingles. A prominent overhanging eave extends from the false mansard and features exposed rafter ends. A shed dormer, capped by a roof of asphalt shingles with exposed rafter ends, marks the false mansard roof and is fenestrated by a six-light wood window. An interior-rear brick chimney rises from the east elevation and has a plain cap. The façade (west elevation) is pierced by a single-leaf, paneled wood door (surmounted by a single-light transom), a single-light fixed window, and 1/1, double-hung, vinyl-sash windows. Each window opening has a concrete sill. A one-story, full-width porch spans the façade and is set on a Permastone-clad pier foundation. A flat roof, featuring overhanging eaves, caps the porch and is supported by Tuscan wood posts and a Permastone-clad post. Square wood balusters finish the porch. The north (side) elevation features fenestration that is consistent with the façade.

A two-story, wood-frame porch, set on a foundation level garage, extends from the rear elevation of the dwelling. The addition is faced with Permastone and is capped by a sloping roof. A roll-up, paneled metal door pierces the garage. The rear (east) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

October 2009: This two-story, single-family rowhouse is located on the east side of 16th Street, N.E. and is set back approximately fifteen feet from the concrete sidewalk. The raised, grassy front yard is marked by mature shrubs and is bounded by a stone retaining wall. The backyard was not surveyed by the volunteer surveyor.

## STYLE/EXTERIOR DATA

Architectural Style(s)

Colonial Revival  
Craftsman

Exterior & Architectural Notes:

October 2009: Constructed in 1923 by H.R. Howenstein, this two-story, two-bay Colonial Revival-style single-family rowhouse was influenced by the Craftsman style and is one of eleven similar dwellings constructed from the same permit (#8795) and one of eight constructed along 16th Street, N.E. Set on a solid concrete foundation, this brick dwelling is faced with five-course, American-bond brick. A sloping roof caps the building and is fronted along the façade by a false mansard roof of asphalt shingles. A prominent overhanging eave extends from the false mansard and features exposed rafter ends. A blind shed dormer, capped by a roof of asphalt shingles with exposed rafter ends, marks the false mansard roof. The façade (west elevation) is pierced by a single-leaf door (surmounted by a single-light transom) and 1/1, double-hung, vinyl-sash windows. Each window opening has a concrete sill. A one-story, full-width porch spans the façade and is set on a brick pier foundation with wood lattice infill. A flat roof, featuring overhanging eaves, caps the porch and is supported by brick posts set upon brick pedestals. Wood balusters finish the porch. The rear (east) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

October 2009: This two-story, single-family rowhouse is located on the east side of 16th Street, N.E. and is set back approximately fifteen feet from the concrete sidewalk. The raised front yard is marked by mature shrubs and is bounded by a stone retaining wall. Concrete steps provide access to the property from the public sidewalk. The backyard was not surveyed by the volunteer surveyor.

Architectural Style(s)

**Renaissance Revival (Italian)**

Exterior & Architectural Notes:

October 2009: Constructed in 1926 by Joseph Shapiro Co., this two-story, three-bay Italian Renaissance Revival-style apartment building originally held thirteen units. This T-shaped building is composed of a two-story main block with rectangular projections rising the full height of the façade from the end bays and a two-story wing extending from the center bay of the rear (east) elevation. Each rectangular bay has the same material treatment as the main block and is capped by a half-hipped roof of asphalt shingles. Overhanging eaves with exposed rafter ends finish each roof. Set on a solid brick foundation, this brick building is faced with five-course, American-bond brick. An ornamental panel decorates the façade and is located above the central bay of the second story. A sloping roof caps the building and is features a stepped parapet rising from the façade (west elevation). The façade is pierced by a single-leaf, paneled wood door (flanked by blind sidelights and topped by a fanlight with a soldier brick surround with imposts and a keystone) and single and paired 1/1, double-hung, vinyl-sash windows. Each window opening is finished by a rowlock brick sill and a soldier brick flat arch. The side and rear (east) elevations were not surveyed or photographed by the volunteer surveyor.

Site Notes:

October 2009: This freestanding, two-story apartment building is located on the east side of 16th Street, N.E. and is set back approximately fifteen feet from the concrete sidewalk. The grassy front yard is marked by mature shrubs and is bounded by a concrete block retaining wall. The backyard was not surveyed by the volunteer surveyor.
