Outbuilding Type _____ Contributing Status _____

Outbuilding Notes:

STYLE/EXTERIOR DATA

Architectural Style(s)

Gothic (Collegiate)

Exterior & Architectural Notes:

The four-story building is constructed in the collegiate gothic style of red brick and limestone trim. The main (south) façade is divided into five sections; the central section is defined by two turreted towers astride the entrance bay defined by a projecting two-story portico. On either side of the central section are recessed sections defined by broad banks of windows arranged in groups of six. At the ends are projecting pavilions with limestone trimmed bay windows. The vertical lines of the towers, projecting pavilions, and bay windows are balanced by horizontal lines of the board banks of windows, limestone strips encircling the building at the tope of the first floor, at the top of the fourth floor, and the parapet. The building features one hundred classrooms, laboratories, and shops covering 365,000 square feet of floor space. When new, the school featured a four-room furnished apartment on the fourth floor where house-keeping skills were taught.

The building is four stories high on a slightly raised basement. It is thirteen bays wide and six bays deep (228 feet by 398 feet). The façade is composed of a central projecting pavilion defined by a two-story porte cochere (which leads to the main entry) and two castellated towers, flanked on either side by long recessed sections with broad banks of windows. When new the port cochere included a canopy to protect pedestrians from the elements. At the corners are projecting pavilions defined by central limestone sheathed bay windows and a castellated roofline. The building has modern replacement sash windows arranged in groups of five and six.

In 1937-1938, an addition was added to the rear of the building and a gymnasium was constructed on the northeast corner. The 1982-1985 renovation of the entire building by Perkins and Will required much of the interior to be altered. The classrooms are arranged around courtyards on either side of the central auditorium/lunch room. The gym and shops are placed at the rear of the building. The porte cochere on the south side of the building houses offices on the first floor.

Site Notes:

Eastern High School occupies a large site covering four city square and overlooks the Anacostia River to the east.
