*The data has been pulled from the D.C. Historic Alley Building Survey, 2011 (D.C. Historic Preservation Office). Only those alleys within the ward's designated historic district were included within the study.

**Alley names appear only if the alleys have current or historic names. Generally only those alleys that were *inhabited* and improved with dwellings were given names, leaving many alleys unnamed.

***Historic dates were derived from the 1904 Sanborn Fire Insurance Map of Washington, D.C. and *The Inhabited Alleys of Washington, D.C.* (Committee on Housing, Woman's Welfare Department), 1912.
