STYLE/EXTERIOR DATA

Architectural Style(s)

Classical Revival

Exterior & Architectural Notes:

March 2009: Constructed in 1910 by J.C. Yost, this two-story, two-bay Classical Revival-style single-family rowhouse is one of six similar buildings constructed from the same permit (#0996). Set on a solid concrete foundation, this brick dwelling is faced with stretcher-bond brick. A sloping roof caps the building and is accented by a molded cornice with dentils. An interior-side brick chimney rises from the south (side) elevation and has a parged cap. A single-leaf door (surmounted by a single-light transom) and single and paired 1/1, double-hung, vinyl-sash windows with false 6/6 and 9/9 vinyl muntins fenestrate the façade. All openings are finished with a concrete lintel. A one-story, full-width porch spans the façade and is set on a brick pier foundation. A flat roof, featuring overhanging eaves, caps the porch and is supported by metal filigree posts set upon brick pedestals. Sanborn maps indicate that a two-story ell extends from the rear (east) elevation. The rear elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story, single-family rowhouse is located on the east side of 15th Street, N.E. and is set back approximately five feet from the brick sidewalk. The landscaped front yard is marked by mature shrubs and is surrounded by a metal milled point fence with brick pillars. The backyard was not surveyed or photographed by the volunteer surveyor.

STYLE/EXTERIOR DATA

Architectural Style(s)

Italianate

Exterior & Architectural Notes:

March 2009: Constructed in 1887 by W.F. Lewis, this two-story, two-bay vernacular single family dwelling is one of five similar buildings constructed from the same permit (#2542) and is a simple interpretation of the Italianate style. Set on a solid brick foundation, this wood-frame dwelling is clad with Permastone. A sloping roof caps the building and is fronted along the façade by a pent roof. A metal cornice finishes the roof. An interior brick chimney, shared with 1524 Gales Street, N.E., pierces the roof. The façade is fenestrated with a single-leaf, paneled door with lights, a single-light fixed window, and single 1/1, double-hung, vinyl-sash windows. The original one-story porch has been removed from the façade. Sanborn maps indicate that a one-story block extends from the rear elevation of the dwelling. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story single family dwelling is located on the north side of Gales Street, N.E. and almost directly fronts the concrete sidewalk. A small planting bed, marked by mature shrubs, fronts the stoop and is surrounded by a metal bow and milled point fence. The backyard was not surveyed or photographed by the volunteer surveyor.

Classical Revival

Exterior & Architectural Notes:

March 2009: Constructed in 1910 by J.C. Yost, this two-story, two-bay Classical Revival-style single-family rowhouse is one of six similar buildings constructed from the same permit (#0996). Set on a solid concrete foundation, this brick dwelling is faced with stretcher-bond brick. A sloping roof caps the building and is accented by a molded cornice with dentils. A single-leaf, paneled door (surmounted by a single-light transom), 1/1, double-hung, vinyl-sash windows, and a bowed window fenestrate the façade. All openings are finished with a concrete lintel. The original one-story, full-width porch on the façade has been removed. Sanborn maps indicate that a two-story ell extends from the rear (east) elevation. The rear elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story, single-family rowhouse is located on the east side of 15th Street, N.E. and is set back approximately five feet from the brick sidewalk. The backyard was not surveyed or photographed by the volunteer surveyor.

Architectural Style(s)

Italianate

Exterior & Architectural Notes:

March 2009: Constructed in 1887 by John H. Lewis, this two-story, two-bay Italianate-style single-family dwelling is four bays deep. This wood-frame dwelling is clad with asbestos shingles. A sloping roof caps the building and is accented by a molded wood cornice with dentils and scrolled brackets. A single-leaf door and 1/1, double-hung, vinyl-sash windows fenestrate the façade (south elevation). Each opening is finished with a square-edged wood surround and a molded window cap with scrolled modillions and dentils. The west (side) elevation is pierced by a single-leaf, paneled door with lights and single and paired 1/1, double-hung, vinyl-sash windows. All second story windows have molded window hoods with scrolled modillions and dentils. A two-story bay, with an open porch first story, extends from the south (side) elevation and is set on a solid brick foundation. Square wood posts support the porch roof, which is ornamented with sawn brackets and dentils. The enclosed second story is clad with asbestos shingles and is capped by a half-hipped roof. Fenestration consists of 1/1, double-hung, vinyl-sash windows. A three-sided square bay extends from the westernmost bay of the south elevation and rises the full height of the dwelling. The bay is clad with asbestos shingles and is capped by a flat roof. Fenestration consists of 1/1, double-hung, vinyl-sash windows and each is surmounted by a molded hood with scrolled modillions and dentils. The rear (north) elevation is pierced by a single-leaf, flush door, a single-leaf, paneled door with lights, and a 1/1, double-hung window.

Site Notes:

March 2009: This two-story, single-family dwelling is located on the northwest corner of 16th Street, N.E. and Gales Street, N.E. and is set back approximately ten feet from the concrete sidewalk. The property is marked by mature shrubs and foundation plantings and is surrounded by a metal chain-link fence. The backyard is paved with concrete and is surrounded by a metal chain-link fence.

Classical Revival

Exterior & Architectural Notes:

March 2009: Constructed in 1912 by A.S. Yost for owner Charles Miller, this two-story, two-bay single-family dwelling is a simple interpretation of the Classical Revival form. The dwelling is composed of a two-story main block with a full height square bay projecting from the façade and a two-story ell extending from the rear elevation. The bay is original and has the same material treatment as the main block. Set on a solid foundation faced with brick, this wood-frame & brick dwelling is clad with asbestos shingles. A sloping roof caps the building and is accented by a molded wood cornice with dentils. The façade is fenestrated with double-leaf, wood-frame glass doors (surmounted by a single-light transom) and 1/1, double-hung, vinyl-sash windows. Each window opening has a square-edged wood surround with a molded cap. A one-story, two-bay porch shelters the primary entrance. A sloping roof, featuring a spindlework frieze, caps the porch and is supported by turned wood posts. The rear (west) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story, single-family dwelling is located on the west side of 16th Street, N.E. and is set back approximately five feet from the concrete sidewalk. The small front yard is enclosed by a metal chain-link fence. The backyard was not surveyed or photographed by the volunteer surveyor.

Architectural Style(s)

Italianate

Exterior & Architectural Notes:

March 2009: Constructed ca. 1887, this two-story, two-bay vernacular single-family dwelling is a simple interpretation of the Italianate style. Set on a solid foundation, this wood-frame dwelling is clad with German vinyl siding. A sloping roof caps the building and is accented by a molded cornice with scrolled brackets. An exterior-side brick chimney rises from the north (side) elevation and is parged. A single-leaf door (surmounted by a single-light transom) and 1/1, double-hung, vinyl-sash windows fenestrate the façade (east elevation). A one-story, one-bay porch, set on a pier foundation, shelters the primary entrance. The half-hipped roof, supported by square wood posts, is covered with asphalt shingles. Sanborn maps indicate that a one-story block extends from the northernmost bay of the rear (west) elevation. The rear elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story, single-family dwelling is located on the west side of 16th Street, N.E. and is set back approximately five feet from the concrete sidewalk. The small, grassy front yard is surrounded by a metal chain-link fence. A wood fence surrounds the backyard.

Modern

Exterior & Architectural Notes:

March 2009: Constructed in 1940 as the Church of the Nativity & Resurrection, this one-story, three-bay church was designed by Mary Frances Knee. Set on a solid concrete block foundation, this building is faced with six-course, American-bond brick. A front-gabled roof caps the building and is accented by raking boards. A bay projects from the center of the façade (west elevation) and rises to a gable bell tower. The bay is pierced by a pointed stained glass window with a rowlock brick sill. The primary entry is located in the southernmost bay of the façade and holds double-leaf, metal-frame glass doors. A three-course, rowlock brick corbeled surround with a pointed arch frames the door opening. The south (side) elevation is fenestrated with single-light fixed windows with rowlock brick sills. Brick pilasters rise the full height of the church and divide each window bay.

A one-story block extends from the northernmost bay of the façade and is original. A sloping roof caps the block, which is fenestrated with a fixed metal windows. Rowlock brick sills finish the openings.

The rear (east) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This one-story, three-bay church is located on the northeast corner of 15th Street, N.E. and Gales Street, N.E. and is set back approximately fifty feet from the concrete sidewalk. The level, grassy property is partially surrounded by a metal chain-link fence. Metal posts, formally part of a fence, still dot the front of the property. A concrete walkway leads from the public sidewalk along 15th Street, N.E. and provides access to the entrance.

STYLE/EXTERIOR DATA

Architectural Style(s)

Italianate

Exterior & Architectural Notes:

March 2009: This vernacular two-story, three-bay single-family dwelling was constructed in 1890 by owner S. H. Butler and is a simpler interpretation of the Italianate style. Set on a solid foundation, this wood-frame dwelling is clad with vinyl siding. A sloping roof caps the building and is fronted on the façade (south elevation) by a false mansard roof. Covered with slate shingles, this false mansard is marked by two dormers; each with a jerkinhead roof. A nine-light wood window pierces the face of each dormer. A boxed cornice with scrolled brackets finishes the false mansard roof. Rising from the west (side) elevation, a semi exterior-side parged chimney pierces the roof. A second chimney rises from the rear (north) elevation and is also parged. A single-leaf door and 1/1, double-hung, vinyl-sash windows fenestrate the façade. A one-story, two-bay porch projects from the façade and is set on a solid brick foundation. A half-hipped roof of asphalt shingles caps the porch and is supported by square wood posts. Turned wood balusters finish the porch, which is accessed via brick steps in the easternmost end bay. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story, single-family dwelling is located on the north side of Gales Street, N.E. and is set back several feet from the concrete sidewalk. A small, brick planting bed fronts the porch and is marked by a mature shrub. The backyard was not surveyed or photographed by the volunteer surveyor.

Classical Revival

Exterior & Architectural Notes:

March 2009: Constructed ca. 1887, this vernacular two-story, two-bay single-family dwelling was most likely constructed at the same time as 1508 Gales Street, N.E. and is a simpler interpretation of the Italianate style. Set on a solid foundation, this wood-frame dwelling is clad with vinyl siding and asbestos siding covers the west (side) elevation. A sloping roof caps the building and is accented by a projecting cornice. A single-leaf, flush door with lights pierces the façade in addition to 1/1, double-hung, vinyl-sash windows, and a two-light fixed window. A one-story, two-bay porch projects from the façade and is set on a solid foundation. A half-hipped roof of asphalt shingles caps the porch and is supported by metal filigree posts.

A one-story enclosed porch extends from the rear (north) elevation of the dwelling and is clad with vinyl siding. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story, single-family dwelling is located on the north side of Gales Street, N.E. and almost directly fronts the concrete sidewalk. A metal milled point fence surrounds a small area fronting the dwelling. The backyard was not surveyed or photographed by the volunteer surveyor.

STYLE/EXTERIOR DATA

Architectural Style(s)

Modern

Exterior & Architectural Notes:

March 2009: Constructed ca. 1985, this apartment complex is composed of twelve freestanding, semi-detached, or attached buildings. Each building is composed of a four-story main block, capped by a flat roof with a two-course, soldier brick frieze, and has two full-height, semi-enclosed balconies projecting from the façade and rear elevations. Each building is set on a solid concrete block foundation and is constructed of concrete blocks faced with stretcher-bond brick. General fenestration consists of single- and two-light metal windows and sliding metal-frame glass doors. Each window opening features a soldier brick sill.

March 2009: The six attached single-family dwellings located at 710-720 16th Street, N.E. were constructed ca. 1985 on the same lot. All are two stories in height, except for 718 and 720 16th Street, N.E. Each building is set on a solid concrete block foundation and is constructed of concrete blocks faced with stretcher-bond brick. A gabled roof caps each building and features overhanging eaves. Fenestration consists of single-leaf, paneled metal doors, two-light fixed metal windows and oriel windows projecting from the second and third stories. All window openings are accented by a soldier brick sill. The rear (west) elevations were not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This apartment complex is centered on Square 4509 and fronts 15th Street, N.E., Benning Road, N.E., and 16th Street, N.E. The level property is landscaped with mature trees, shrubs, and foundation plantings and is partially surrounded by a metal milled point fence. Parking lots are located within the interior of the complex and each is paved with asphalt.

March 2009: These six attached dwellings are located on the west side of 16th Street, N.E. and are set back approximately ten feet from the concrete sidewalk. Each dwelling is fronted by a grassy lot, which is marked by mature shrubs and foundation plantings, and is partially surrounded by a metal milled point fence. A concrete walkway approaches each primary entrance from the concrete sidewalk. The backyards were not surveyed by the volunteer surveyor.

Italianate

Exterior & Architectural Notes:

March 2009: Constructed in 1887 by W.F. Lewis, this two-story, two-bay vernacular single family dwelling is one of five similar buildings constructed from the same permit (#2543) and is a simpler interpretation of the Italianate style. Set on a solid brick foundation, this wood-frame dwelling is clad with vinyl siding. A sloping roof caps the building and is fronted by a pent roof of asphalt shingles. A molded cornice with a centered gable and brackets finishes the roof. The façade is fenestrated with a single-leaf door (surmounted by a single-light transom) and single and paired 1/1, double-hung, vinyl-sash windows. A one-story, two-bay porch extends from the façade and is set on a solid foundation. A half-hipped roof, covered with asphalt shingles, caps the porch and is supported by square wood posts. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story single family dwelling is located on the north side of Gales Street, N.E. and directly fronts the concrete sidewalk. A small planting bed, with a brick retaining wall, fronts the porch and is marked by mature shrubs. The backyard was not surveyed or photographed by the volunteer surveyor.

STYLE/EXTERIOR DATA

Architectural Style(s)

Italianate

Exterior & Architectural Notes:

March 2009: Constructed in 1887 by W.F. Lewis, this three-story, two-bay vernacular single family dwelling is one of five similar buildings constructed from the same permit (#2543). Set on a solid brick foundation, this wood-frame dwelling is clad with German vinyl siding. Although constructed as a two-story building, a third story was added ca. 1925 and is noted as a three-story dwelling on the 1928 Sanborn map. A mansard roof, covered with vinyl siding, caps the building, and features overhanging eaves. A wall dormer marks the dormer and holds paired 1/1, double-hung, vinyl-sash windows. A molded cornice with brackets accents the mansard roof above the second story openings. An interior-side brick chimney rises from the west elevation and has a plain cap. The façade is fenestrated with a single-leaf, paneled metal door with lights (surmounted by a single-light transom) and single and paired 1/1, double-hung, vinyl-sash windows. A one-story, two-bay porch extends from the façade and is set on a solid parged foundation. A half-hipped roof caps the porch and is supported by square wood posts with sawn brackets. A three-sided, square oriel window extends from the third story of the east (side) elevation and is noted on the 1928 Sanborn map. The oriel is clad with German vinyl siding and is fenestrated with paired 1/1, double-hung, vinyl-sash windows.

Sanborn maps indicate that a two-story block extends from the rear elevation. The block is clad with vinyl siding. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story single family dwelling is located on the north side of Gales Street, N.E. and almost directly fronts the concrete sidewalk. A small grassy area fronting the porch is surrounded by a metal bow and milled point fence. The backyard was not surveyed or photographed by the volunteer surveyor.

Exterior & Architectural Notes:

March 2009: Constructed in 1887 by W.F. Lewis, this two-story, two-bay vernacular single family dwelling is one of five similar buildings constructed from the same permit (#2543) and is a simpler interpretation of the Italianate style. Set on a solid brick foundation, this wood-frame dwelling is clad with aluminum siding. A sloping roof caps the building and is accented by a molded wood cornice with dentils and brackets. The façade is fenestrated with a single-leaf door and single and paired 1/1, double-hung, vinyl-sash windows. A one-story, two-bay porch extends from the façade and is set on a solid parged foundation. A half-hipped roof caps the porch and is supported by square wood posts. The rear (north elevation) was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story single family dwelling is located on the north side of Gales Street, N.E. and directly fronts the concrete sidewalk. A small planting bed, with a brick retaining wall, fronts the porch and is marked by mature shrubs. The backyard was not surveyed or photographed by the volunteer surveyor.

Exterior & Architectural Notes:

March 2009: Constructed in 1887 by W.F. Lewis, this two-story, two-bay vernacular single family dwelling is one of five similar buildings constructed from the same permit (#2542) and is a simple interpretation of the Italianate style. Set on a solid brick foundation, this wood-frame dwelling is clad with vinyl siding. A sloping roof caps the building and is fronted along the façade by a pent roof. A molded cornice with dentils and brackets finishes the roof. An interior brick chimney, shared with 1522 Gales Street, N.E., pierces the roof. The façade is fenestrated with a plywood door and single and paired 1/1, double-hung, vinyl-sash windows. Square-edged wood surrounds with molded lintel caps finish the window openings. A one-story, two-bay porch extends from the façade and is set on a pier foundation. A half-hipped roof, covered with asphalt shingles, caps the porch and is supported by square wood posts. Sanborn maps indicate that a one-story block extends from the rear elevation of the dwelling. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story single family dwelling is located on the north side of Gales Street, N.E. and almost directly fronts the concrete sidewalk. A small grassy area fronts the porch and is surrounded by a metal milled point fence. The backyard was not surveyed or photographed by the volunteer surveyor.

STYLE/EXTERIOR DATA

Architectural Style(s)

Italianate

Exterior & Architectural Notes:

March 2009: Constructed in 1887 by W.F. Lewis, this two-story, two-bay vernacular single family dwelling is one of five similar buildings constructed from the same permit (#2542) and is a simple interpretation of the Italianate style. Set on a solid brick foundation, this wood-frame dwelling is clad with German vinyl siding. A sloping roof caps the building and is accented by a molded cornice with dentils and brackets. The façade is fenestrated with a single-leaf door and single and paired 1/1, double-hung, vinyl-sash windows. A one-story, two-bay porch extends from the façade and is set on a solid brick foundation. A half-hipped roof, featuring a spindlework frieze, caps the porch and is supported by brick posts. Sanborn maps indicate that a one-story block extends from the rear elevation of the dwelling. The rear (north) elevation was not surveyed or photographed by the volunteer surveyor.

Site Notes:

March 2009: This two-story single family dwelling is located on the north side of Gales Street, N.E. and almost directly fronts the concrete sidewalk. The backyard was not surveyed or photographed by the volunteer surveyor.
